A powerful spotter that helps neutralise spots and odours caused by urine and other waste products on carpets and wet cleanable fabrics. For best results, treat affected area as soon after occurrence as possible. Determine spot type. Check application list on each spotter bottle in the kit to determine the correct spot remover. Pre-test carpet or fabric in a small inconspicuous area for dye sensitivity and colour fastness. Sponge or scrape up any surface spot material. Apply Urine Spotter & Deodoriser directly to spot with nozzle applicator. Blot with clean white absorbent cloth or paper towel. Do not rub. Deep spots may need light brushing. On larger spots, work from the outside of the spot toward the centre. Repeat steps above as necessary. Rinse area with damp sponge and clear water to remove excess spotter.
